Turning Images Into Memories

Get Grandma Out of the Closet

This Mothers Day Get Grandma Out Of the Closet - Mothers Day
Like most of us we have a treasure trove of photos boxed away on photo albums stored away in the closet. This Mothers Day turn those photos into wonderful gifts. Mailpix.com offers innovative ways to not only archive those photo treasures but to give fun gifts to a new generation.

Fred Lerner started MailPix.com with just that goal in mind. A lifelong photo entrepreneur, Fred has a concern that a whole generation of photo memories -- stored online, on discs, in cameras and in smartphones -- will be lost to future generations unless preserved as photo books, prints, cards, enlargements and other tangible products.
